01 WHO WE ARE

About Us

Al Jabor Pools is Qatar's dedicated specialist in the design, construction, commissioning and lifetime maintenance of swimming pools, water features, jacuzzis, saunas, steam rooms and spas. With more than 35 years of specialist experience — building in Qatar since 1991 — we have built a reputation for engineering excellence and a finish that endures in Qatar's climate — serving private residences, palaces, hospitality, government and commercial clients alike.

We operate as a division of Al Jabor Trading, a pillar of Al Jabor Group Holding — founded in 1958 under the chairmanship of H.E. Sheikh Jabor Bin Mohammed Al-Thani. This heritage gives us the financial strength, governance and long-term outlook of a major Qatari institution, combined with the focus and craft of a true specialist.

1958

Heritage of Al Jabor Group Holding, our parent and guarantor of stability

35+

Years of specialist experience — building in Qatar since 1991

700+

Pools under active maintenance across the State of Qatar

A Single Partner, End to End

From first concept and hydraulic engineering through construction, commissioning and ongoing maintenance — one accountable team for the full life of your water environment.

02 OUR COMPASS

Vision, Mission & Values

VISION

To remain Qatar's most trusted name in swimming pools and water environments — the benchmark for craftsmanship, safety and lasting quality.

MISSION

To deliver the highest quality of products and services in the swimming pool industry, serving residential and commercial sectors with excellence.

I

Quality Without Compromise

Certified systems, premium materials and a finish engineered specifically for Qatar's climate.

II

Reliability

We honour our timelines and stand behind our work with dedicated maintenance and warranty support.

III

Safety First

A genuine, ISO 45001-certified commitment to the wellbeing of our people, our clients and the public.

IV

Crystal-Clear Service

Transparent reporting and dedicated coordination, from first design to final handover and beyond.

“We design and build your dream swimming pool — and turn it into reality.”

03 PROVEN DELIVERY

Our Expertise & Track Record

Three and a half decades of focused experience span new construction, mechanical and electrical engineering, and high-end finishing — underpinned by a maintenance portfolio that keeps us in daily contact with hundreds of installations nationwide. That continuous fieldwork sharpens everything we build.

700+

Swimming pools under active maintenance across Qatar

1,000+

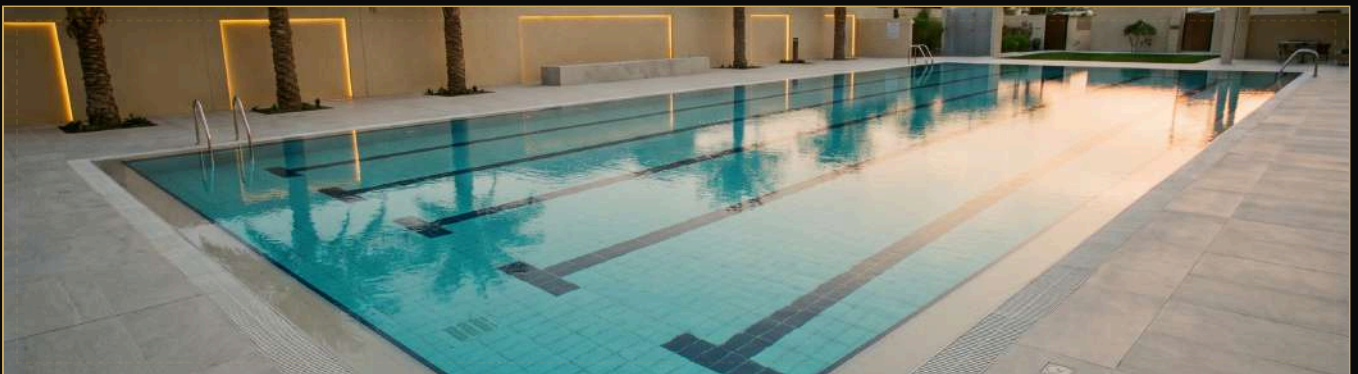

Construction, MEP and finishing projects delivered since 1991

35+

Years of specialist experience in pools, spas and water features

Triple ISO

Certified for Quality, Environmental and Occupational Health & Safety management

Continuity of Knowledge

Because we maintain what we build, lessons from the field flow back into design and construction — a closed loop that few contractors in Qatar can match.

04 WHAT WE DO

Range of Products & Services

i Design & Construction

- Bespoke residential, palace and commercial pools
- Standard to large pools — 10×6 m, 15×7.5 m and beyond
- Semi-Olympic (25.5×12.5 m) and diving pools
- Movable-floor pools — hidden hydraulic floor systems
- Overflow (deck-level) and skimmer systems
- Civil works, structural waterproofing and tanking
- Tiling, glass mosaic and natural-stone finishes

ii Mechanical, Electrical & Plumbing

- Filtration and circulation system design
- Pumps, valves and pipework installation
- Heating, chilling and heat-cool pump systems
- Pool electrical, lighting and control panels
- Dosing and water-treatment systems
- Testing and commissioning

iii Water Features & Spa

- Decorative fountains and water features
- Jacuzzis — ready-made and built-in
- Steam rooms
- Saunas — traditional and infrared
- Hot and cold therapy / plunge pools
- Complete spa fit-outs

iv Equipment & Accessories

- Complete pool kits
- Movable-flooring pool systems
- Automatic and manual pool covers
- Pumps, filters, lighting and nozzles
- Maintenance and cleaning equipment
- Water-treatment chemicals

05 STANDARDS & ASSURANCE

Quality, Health & Safety

ISO 9001:2015

QUALITY MANAGEMENT

Systematic control of design, delivery and service quality.

ISO 14001:2015

ENVIRONMENTAL MANAGEMENT

Responsible handling of water, chemicals and waste.

ISO 45001:2018

OCCUPATIONAL H&S

A certified commitment to safe working practices.

All three certifications were issued in June 2025 by QRO (Quality Research Organization), accredited by EGAC and the IAF — independent assurance that our systems meet recognised international standards.

Every project is governed by a quality plan with defined hold-points and sign-offs — from material approval through structural works, MEP commissioning and final water balancing. Inspection records are documented throughout; a handover certificate, O&M manuals and warranty are issued on completion.

06 OUR PARTNERS

Principal Suppliers

ATECPOOL
BWT GROUP

AtecPool • BWT Group

Leading manufacturer of pool, spa, sauna and wellness equipment — 40+ years across MENA and Asia Pacific.

BWT
BEST WATER TECHNOLOGY

BWT — Best Water Technology

Europe's leading water technology company (Austria, est. 1990); advanced treatment and filtration.

ELEBRO
ENGINEERING

Elecro Engineering (UK)

Pool, spa and aquatic electric heaters, heat exchangers and disinfection systems since 1997.

ASTRALPOOL

AstralPool • Fluidra Group

A global leader from Spain in pumps, filters, heaters, lighting, and water treatment.

ONIX[®]

ONIX (Spain)

World-leading glass mosaic manufacturer since 1999; premium recycled-glass mosaics.

Mayor
CERÁMICA

Mayor Cerámica (Spain)

Extruded porcelain tiles and pool coping, specialised in swimming pool finishing.

SERA
POOL
Porcelain Love

Serapool Porcelain (Turkey)

Turkey's first porcelain pool tile maker; used in 200,000+ pools across 88 countries.

HARVIA

Sauna & Spa

Harvia (Finland)

One of the world's most established sauna makers (est. 1950); heaters, rooms and accessories.

 **GUIHUA CHEM**

Guihua Chemicals

Established supplier of raw chemicals for construction, coatings and related applications.

07 LIFETIME CARE

Maintenance Services

Al Jabor Pools maintains 700+ pools across Qatar under regular service contracts — keeping water safe, balanced and crystal clear for private, hospitality and institutional clients.

700+

Pools under active maintenance contracts

Monthly

Documented client reporting on water quality and works carried out

ROUTINE SERVICE

- Regular chemical supply and dosing
- Water treatment and balancing
- Filtration and circulation checks
- Cleaning, vacuuming and skimming

REPAIR & REFURBISHMENT

- Pump, filter and equipment replacement
- Leak detection and structural repair
- Re-tiling and re-finishing
- Equipment modernisation

Transparent Monthly Reporting

Every contract includes documented reporting — water-quality readings, chemical usage, works carried out and our recommendations — so clients always know the condition of their pool.

08 TRACK RECORD

Selected Projects & References

CORPORATE, HOSPITALITY & GOVERNMENT

- Qatar Airways — multiple residences and towers (Al Maha / Pearl Qatar, Oryx Tower, Westbay, Wakra)
- Qatar Armed Forces / Qatar Emiri Corps of Engineers — Al Shamal Camp
- Trags Engineering — Cuban Hospital, Dukhan
- Sheraton Hotel (via Landworx)
- Ezdan Real Estate — multi-village programme
- Doha British School
- Lycée Bonaparte School
- Darwish Interserve — Viva Bahriya, Pearl Qatar
- Leading Doha hotels — Cielo, Starto by Warwick, Al Mansour Park Inn

PRIVATE VILLAS & PALACES

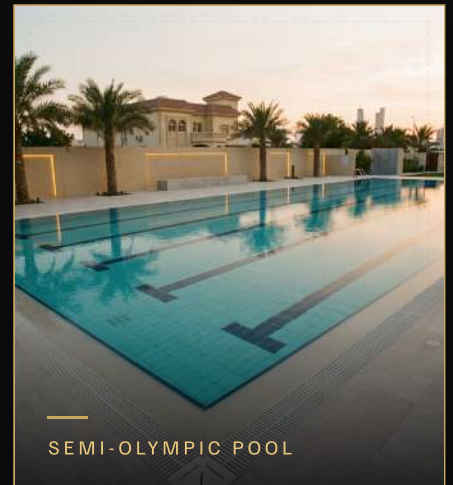

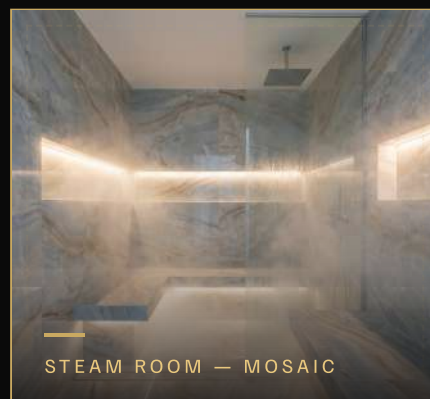

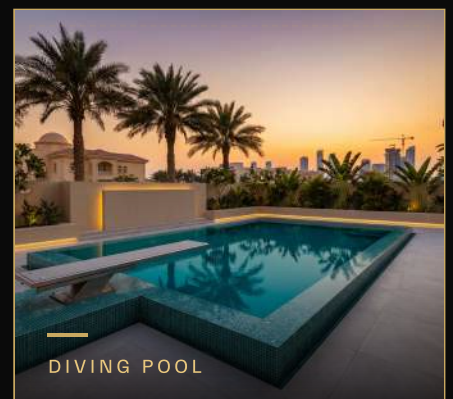

- Simaisma Murwab Resort — Skh. Khaled Ben Ahmed Al Thani (main pool 100×20 m, kids pool 31×17 m, plus surge tank and skimmer pools)
- Private Villa, Shk. H.M.M Al Thani — Lusail Waterfront (movable-floor pool)
- Private residence — movable-floor pool with hidden hydraulic deck
- Residences of the Al Thani family
- Private palaces and royal compounds — large automatic-cover pools
- Estates of prominent Qatari families
- Bespoke residential pools, semi-Olympic pools and spas

Many private and palace projects are delivered under confidentiality; detailed references available on request.

09 OUR WORK IN PICTURES

Project Gallery

A selection of completed pools, water features and wellness installations delivered across Qatar.

10 CAPABILITY

Resources, Plant & Equipment

Self-sufficiency on site is central to our reliability. We own and operate the tools, plant and fleet needed to deliver and maintain projects without dependence on third parties.

Construction Tools & Machinery

Angle grinders, demolition and rotary hammers, plate compactors, steel-bar cutters and precision survey levels.

Pumping Equipment

An extensive fleet of submersible, open-well, booster and self-priming pumps — plus vacuum pumps and diesel engines for dewatering and operations.

Water Storage & Treatment

Storage tanks, dosing systems and water-treatment equipment to support construction and ongoing service.

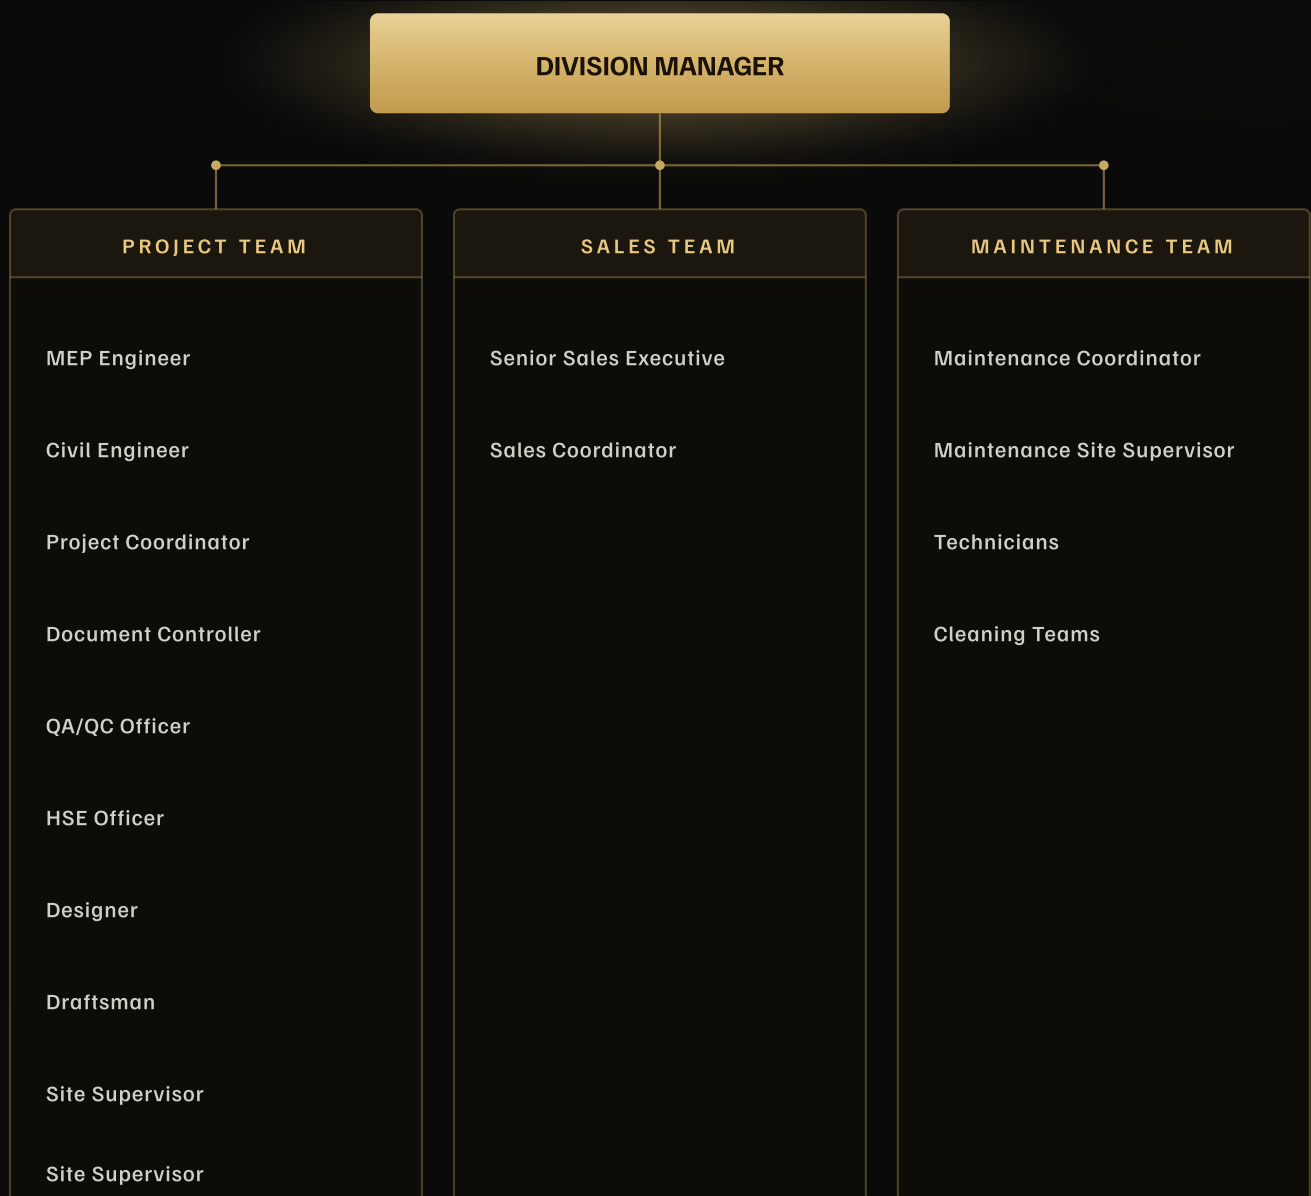

Testing & Vehicle Fleet

Moisture meters and coating / QC gauges; a dedicated fleet of pick-ups, double-cabin trucks, buses, forklifts and cranes for project and maintenance mobility.

Our Process / How We Work

01

Consultation & Design

2D / 3D design, site survey and a detailed client brief to shape the vision.

02

Proposal & Approval

Drawings, specifications and contract — agreed and signed before work begins.

03

Civil & Construction

Excavation, structural works and structural waterproofing built to last.

04

MEP Installation

Filtration, pumps, heating and electrical systems engineered and installed.

05

Finishing & Commissioning

Tiling / liner, water balancing, testing and a documented handover.

06

Maintenance & Care

Chemical supply, scheduled servicing and transparent monthly reporting.
